

Juwel triangular coffee table

A gem for the living room.
Round, oval or triangular - the Juwel coffee table stands out in every form and is a real gem for every living room.

The design of the Juwel coffee tables is modelled on the setting of a diamond ring. The glass top is charmingly held by the table's delicate arms radiating from its foot. The diamond-ring aura is underscored by the bevelled finish of the clear glass top. A second glass top creating additional storage space is supported by the crossed foot.
