

Magnum table

We won our first major design award in 2005 when we received the Red Dot Design Award for our magnum table. This table is still one of our absolute bestsellers. This is because of its timeless design on the one hand and its sophisticated extension technology on the other which can be operated using one hand, and continues to set the benchmark today. The integrated inserts allow the magnum table to be conveniently extended by 50, 2 x 50 or 100 cm in next to no time. The patented 2soft swivel technology ensures gentle movement in both directions, making it extremely easy to use and handle.

The 2soft swivel technology ensures that the integrated inserts of the magnum table open and close smoothly and safely. This protects people and the material.
