

Multileg Low Table

Multileg Low is designed by Jaime Hayon and was designed to be paired with Multileg Cabinet. Hayon has achieved fame because of his talent, his own style, and the determination to carry out his projects with quality. He often seeks inspiration in the past, and in craftsmen, and finds the necessary collaborators to manufacture his designs with care. The contrasts and sophistication which give personality to Jaime Hayon's work are represented in this ample collection which also includes vases, chairs, and elegant and comfortable wing chair and this new low table which makes a good pair with the Multileg Cabinet.

Standard finish: MDF base top in matte or high-gloss lacquer. Solid turn alder-wooden legs in matte or high-gloss lacquer. Top in 8mm optical glass, painted on the underside in the same color.

Walnut finish: Varnished walnut nature effect top

Showtime 10 finish: the same as the standard version in high-gloss and a 2c, thick marble top available in Green Patrizia, White Carrara Venato and Black Marquina.
