

# Shanty Credenza

Shanty is imagined as a patchwork of corrugated surfaces referencing improvised dwellings across the world, from Brazil to Africa and India. The cabinet collection celebrates the beauty of these seemingly temporary constructions. The corrugated facade appears to be a spontaneous composition of different colored surfaces, disguising versions and finishes. Shanty Summer and Shanty Winter, more or less colorful, Shanty Black with brass finished legs and other versions in monochrome. The cabinet can be accessorized with a new mirror system that allows for different compositions.
