

DS-718 Chair

The DS-718 is a chair that is equally at home in the dining room or conference room. Thanks to its perfect balance, its cantilevered form is in whole captivating and unites clear design with unparalleled quality and the ultimate in seating comfort. The leather-covered foamed seat shell is attached to a round tubular frame in either a high-gloss or pearlescent chromed finish, or can be lacquered on request. The leather covering has an attractive tucked seam running around the side. With or without armrests, this cantilever chair can be stacked without difficulty.
