

# Lounger

Jaime Hayon has quickly become the most suggestive character of the new Spanish design scene. In his meteoric international success, BD's Showtime collection, developed and introduced in 2006, has shone especially. A collection of great personality for the home and the contract, that was completed the following year with a family of chairs. In the wake of its success, BD introduced other pieces in this collection, including: the Lounger. It has the elegance of the collection, the comfort that is required for this type of chair and Hayon's unmistakable stamp in its design: contrasts between classicism and modernity, monocolour finishes and high quality upholstered in fabric or leather.

The fused aluminium structure for the seat, and the tubular steel for the back rest are painted in a satin finish. The shell of the seat, back rest and top sides are in varnished or nature effect walnut, or lacquered. Metal upholstery buttons in the same finish as the structure. Armrests, seat back and footstool upholstered in BD fabrics and leathers.

## DIMENSIONS

Armchair:

35.8" L x 29.9" D x 38.9" H

Footstool:

23.6" L x 24.4" D x 16.5" H
