

Adler II Table

DESIGN PETER DRAENERT 1995

An extendable dining table, boat-shaped, rectangular, organic or oval, made of natural stone with lifting mechanism for an integrated center-leaf made of natural stone. The integrated lifting mechanism allows the interior central leaf to be raised once the two halves of the table top have been pulled apart. An ingenious technique makes the extension a procedure of miraculous ease. This model is offered with 4 different bases.
