

# Aye Chair

Our design award-winning Aye chair by Team 7 is a perfect blend of beautiful form and comfort. Fine seams run precisely around the edges of the delicate upholstered chair. With its flexible backrest, its comfortable and elastic seat and optional ergonomic armrests, the Aye chair is a very pleasant and comfortable seat. The striking sidecut of the backrest gives our aye chair an airy appearance while also functioning as a practical handle for moving the chair.

Our Aye chair is a real quick-change artist: Numerous leather, natural leather and fabrics, either single colors or with two colors combined, plus chair legs in various types of wood all give you an unbelievable freedom to design your own chair.
