

# DS-515 chair

DS-515 by Greutmann Bolzern for de Sede

DS-515 presents itself as an unconventional upholstered chair, designed by the design duo Greutmann Bolzern. The refined sub construction, the slender upholstery and the leather workmanship in its highest perfection, already hints to the high seating comfort. The young design with straight lines and beautiful details in form of cross leather lacings make DS-515 a perfect companion at the dining table, in the home office or in the conference room. Wherever the stylish upholstered chair makes its appearance, it impresses with its confident performance.

A delicate steel runner base carries the inviting seating area.

A thin wire construction functions as a shape-forming frame, over which a padded leather cover is stretched. The folded, turned-down leather defines the form, masterful leather stitching and sophisticated details as a textile insert in the back area give it a distinctive character.

Whether with or without upholstered armrests, DS-515 appeals optically light, of high comfort and with a timeless aesthetic. The upholstered chair can be used in the home as well as in the object sector. With a special cover, the chair can also be installed in a semi-outdoor space.
