

Aberdeen Armchair

The Aberdeen armchair from Officinadesign Lema mirrors the worn, comfortable look of its sister sofa, thanks to the removable cover which gently envelopes it. The shape of the armrest is emphasised by the folds in the fabric, which become a detail in their own right. Meanwhile, the volumes of the sofa are emphasised by subtle stitching. Comfort is provided by polyurethane padding supplemented by a light and breathable hypoallergenic fiber. The technical features do nothing to overshadow the iconic, classical aesthetics of the sofa itself: Aberdeen is a traditional piece that helps to make shared moments the centre of the home.
