

DS-5 Sofa

DS-5 by Antonella Scarpitta for de Sede

DS-5 exudes a sense of infinite peace. A peace that is nigh on tangible: "tranquillo" describes it to a T. Antonella Scarpitta has in fact done nothing other than design seating cubes with slim elegant armrests that virtually float above the ground. The result is Italianità, purist-elegant lines and a piece of furniture just made for the lounge, where the spirit of "dolce far niente" can be celebrated each day to the full. The deep back rests, typical for the lounging style, can be folded up individually to allow for the snuggest of supports.
