

# Lope 1541 Table

Lope designed by Wolfgang C.R.  
Mezger for Draenert

The model TRILOPE has inspired the designer Mezger to LOPE. Solid high-quality materials achieve a perfect result: the table top, made of natural stone, offers plenty of space and offers the perfect basis for table conversations due to the soft rectangular shape. The table legs are made of strikingly pro led solid wood, which ensures a maximum of stability. The base and the table top feature a perfect aesthetic alliance and appear like a captivating and compelling sculpture in a room.

Over 180 types of stone available.
