

Lloyd Armchair

Lloyd by Gino Carollo for Leolux

Lloyd is a meeting of worlds; the attention that Leolux pays to comfort, brought to you in the Italian design of Gino Carollo.

This is Lloyd. A design beacon. Tough yet inviting. With supple, almost nonchalant, upholstery and handcrafted details such as decorative piping that emphasises the powerful form. Lloyd offers many possibilities for customisation: choose the inside and outside, the colour of the base, and the decorative stitching you prefer.

What characterises Lloyd is his natural look. The swivel base in solid wood or aluminium acquires a certain lightness as a result of the slanted sides. The recliner handle is covered in leather.

When designer and developers lavish so much attention on an armchair the result is an interior object that is timelessly elegant. Unique and international in character. Lloyd by Leolux
