

Tampa Coffee and Side Table

The Leolux Tampa tables combine a useful function and colourful look with a playful shape. Beautiful compositions can be created by combining different leaf shapes. Tampa tables are made with round, bean or egg-shaped upperleaves in a range of materials. The leaves are finished in oak, walnut, marble, glass or lacquer. Your own individual interior style? The possibilities are endless with Tampa.

The Tampa coffee table is available in different versions: "Bean" in glass or lacquer, "Ovo" in oak, walnut or lacquer, "Round" in marble or lacquer and "Double Round" in these same materials and a glass lower leaf.

The "Round" occasional table is finished in oak, walnut or lacquer. Leolux finishes each frame in a black powder coating (E2200 Nuit) as standard, but other epoxy colours can also be used for a personal touch.
