

Flint Chaise Lounge

Flint by Beck Design for Leolux

Functional beauty, with subtle curves.

An extensive program of sofas, divans and add-on elements that can be constructed to create large and small configurations, including a 90 degree corner or an exciting angled combination. The organic shapes of the seat and arms give Flint a friendly appeal that is enhanced by the generous loose seating cushions. Flint exudes energy; a design that demands its own place in the room.
