

Harold asymmetrical modular sofa

A versatile seating system, designed for both home and contract environments, that - thanks to linear, asymmetrical and curved elements - gives life to the most diverse configurations. Rigorous lines are slightly smoothed by soft curves and made precious by a basting stitching, visible on both frame and cushions. Harold offers two backrests in different thicknesses for all the seating units and can be complemented by armrests available in two thicknesses and heights. Modular units with removable cover. Fixed cover for leather version.
