

DS-163

Armchair

DS-163 by Virginia Harper & Babak Hakakian for de Sede

The DS-163 armchair embodies de Sede's boundless pursuit of refined craftsmanship.

Its expanding volume swells from a simple cone-shaped base, and is distinguished, in part, by its generous proportions. Enveloping with its capacious semi-circular sweep, the vertical stitching fragments the chair's statuesque silhouette, amplifying both the ergonomic and visual curves.

Engineered with an eye towards function, the DS-163 boasts a full, 360 degree swivel - a practical and unexpected feature - and is available in either VELOUR or NECK. The combination of the elegant design and the strength of this coveted full grain hide guarantees a future family heirloom, and boasting a rich and burnished patina, the DS-163 will stand the test of time.
