

Capri Ottoman

Capri by Edward van Vliet Leolux

For Edward van Vliet, mood is the starting point of his designs. He melds colours, shapes, materials and functions together; in this fusion each interior element gets undivided attention.

Capri blends into the most elegant interiors. Besides the basic footstool characteristics, which are comfort and flexibility, this footstool's refined details make it so much more. It seems to float on hidden wheels and the vertical pleats feature artisanal stitching. These characteristics turn Capri into a showpiece and standalone feature of your interior.
