

Norton Capitonne sofa

Norton Capitonné by Meridiani, is a sofa of the finest manufacture, which makes a product unique and new, otherwise already declined in hundreds of variations. The specificity of the sofa is the one of not being designed as a series of elements that are to be combined and fitted together, but to have been imagined and produced as a single block marked by a succession of different and continuous volumes all fully worked capitonné. Norton Capitonné is a work of high craftsmanship, which is impossible to produce without possessing an extraordinary know-how.
