

Filigno Wall Shelving

In addition to storage furniture with drawers, flap fronts and hinged or sliding doors, there is also wall shelving in L, C or U-shapes. Wall shelves provide a place to display books, home accessories or collector's items. The Filigno wall shelf can be hung on its own or be combined with additional shelves. If desired, LED lighting can be installed in the shadow gap on the wall shelving unit's rear panel. Atmospheric lighting turns the wall shelf into a display stage, transforming the your favorite objects into eye-catching features in your home.
