

Ellevi hinged wardrobe

Armadio al Centimetro (made to measure) wardrobes with hinged doors offer a modular and customisable storage solution, underpinned by LEMA's philosophy of uncompromising design. In a wide-ranging selection of designs all featuring a modular structure and different door types, there is no limit to custom closet possibilities. Choose from a range of height, width, depth and finish options to fit your space and satisfy any aesthetic need. LEMA closets with hinged doors are ideal for corner placements, bridge solutions, passage solutions, niches and attics. It is also possible to change the depth of single columns simply by using pilasters. Or you can add optional exterior drawer units and TV niches to the system. There are also multiple ways in which to customise the wardrobe's interiors: different finishes are available along with a selection of equipment designed to rationalise space.

Express your personal style with different types of drawer units fronted in glass or wood, embellish your solution with the glass display case for belts and ties, or opt for the incredibly practical option of extractable storage units for trousers, undergarments and shoes. The product range is completed with precious details such as the built-in light for the shelf, the rail to hang clothes, and elegant finishing touches such as the mats in leather and fabric for the drawers or the leather boxes for shirt compartments.

ELLEVI by Officinadesign LEMA is a solution characterised by a minimal look that stands out for its handle embedded in the door and tone-on-tone background in contrast with the door finish. It can be adjusted in height, width and depth and is suitable for corner solutions. Featuring wide-ranging internal equipment options to suit any need. Drawer units, display cases for trousers, belts and shoes, shelves with built-in lights are completed with luxury details in leather and sumptuous fabrics for a wardrobe that is truly elegant.

Structure interior:

- Melamine
- Back panel available also with decorative fabric

Structure exterior:
