

Emery hinged wardrobe

Armadio al Centimetro (made to measure) wardrobes with hinged doors offer a modular and customisable storage solution, underpinned by LEMA's philosophy of uncompromising design. In a wide-ranging selection of designs all featuring a modular structure and different door types, there is no limit to custom closet possibilities. Choose from a range of height, width, depth and finish options to fit your space and satisfy any aesthetic need. LEMA closets with hinged doors are ideal for corner placements, bridge solutions, passage solutions, niches and attics. It is also possible to change the depth of single columns simply by using pilasters. Or you can add optional exterior drawer units and TV niches to the system. There are also multiple ways in which to customise the wardrobe's interiors: different finishes are available along with a selection of equipment designed to rationalise space.

Express your personal style with different types of drawer units fronted in glass or wood, embellish your solution with the glass display case for belts and ties, or opt for the incredibly practical option of extractable storage units for trousers, undergarments and shoes. The product range is completed with precious details such as the built-in light for the shelf, the rail to hang clothes, and elegant finishing touches such as the mats in leather and fabric for the drawers or the leather boxes for shirt compartments.

LEMA's DNA is bound, from the very beginning, to the production of made-to-measure systems for day and night areas that are reinvented each year with new details.

Armadio al Centimetro Wardrobe, the modular system that offers utmost building freedom, is enriched with the new Emery wardrobe.

Defined by a vertical slim metallic profile, Emery by Officinadesign LEMA is characterised by refined doors in back-painted acid-etched glass. This special treatment suggests a door surface that is matte, and extremely smooth and soft to the touch, discreetly concealing the bright interiors finished in new Canvas melamine that has a delicate fabric-effect texture.

Emery also features wide-ranging internal equipment offering multiple combinations for any need: drawer units, display cases for trousers, belts and hanging rail with not forgetting precious mats and fabric such as leather and fabric boxes for shirt
