

Kyn hinged wardrobe

Armadio al Centimetro (made to measure) wardrobes with hinged doors offer a modular and customisable storage solution, underpinned by LEMA's philosophy of uncompromising design. In a wide-ranging selection of designs all featuring a modular structure and different door types, there is no limit to custom closet possibilities. Choose from a range of height, width, depth and finish options to fit your space and satisfy any aesthetic need. LEMA closets with hinged doors are ideal for corner placements, bridge solutions, passage solutions, niches and attics. It is also possible to change the depth of single columns simply by using pilasters. Or you can add optional exterior drawer units and TV niches to the system. There are also multiple ways in which to customise the wardrobe's interiors: different finishes are available along with a selection of equipment designed to rationalise space.

Express your personal style with different types of drawer units fronted in glass or wood, embellish your solution with the glass display case for belts and ties, or opt for the incredibly practical option of extractable storage units for trousers, undergarments and shoes. The product range is completed with precious details such as the built-in light for the shelf, the rail to hang clothes, and elegant finishing touches such as the mats in leather and fabric for the drawers or the leather boxes for shirt compartments.

Designed by David Lopez Quincoces Kyn is a hinged door wardrobe with a sophisticated contemporary feel. Fitting perfectly into any domestic environment, it is defined in the dialogue between the panels of the doors proposed in heat-treated oak and in 40 opaque lacquered colors and the bronze painted metal of the light perimeter profile integrated into the handles.

The aesthetic care of Kyn reflects, as always, the attention to functionality and to the infinite design possibilities
