

Taiki sofa

Contemporary past

Taiki by Chiara Andreotti becomes a collection with the new two-seater sofa that takes its place alongside the easy chair presented last year. A reinterpretation of the classic forms in a contemporary version through the welcoming padding that invites you to relax. The detail of manufactured appearance of the seams gives an up-to-date spirit to the proposal, yet maintaining a clear reference to LeCorbusian lines and proportions, while the structure in heat-treated oak-tinted ashwood chooses a severity with an oriental spirit.
