

DS-343 Side Table

DS-343 by de Sede Design Team and Bart Van der Heyden

The side table DS-343 is admirable from all sides. The round tabletop is available in a variety of materials: in wood, in DS-TELA mixtures of stone and metal materials, or in high-quality marble. The table base, designed with stylish edging, is a highlight and available in a wide range of materials, from matte to chrome-plated.
