

Dexter 2058 Chair

The formally sovereign DEXTER chair with its sweeping contours now is as well available with a sturdy steel frame for a higher weight-bearing capacity of up to 150 kg. The steel frame with conical tapered legs is even more slender in its appearance than its brother with the wooden frame. A chair with or without leather drapery, available in 3 soft leather types with more than 90 colors. The steel frame is available in a black or dark bronze coated version.
