

# Rolf Benz 914 bedside table

Rolf Benz 914 has been designed as an elegant occasional piece to go with the Rolf Benz 50 upholstered bed, though it gives any combination a special something. The sophisticated bedside table combines a wooden body for the door and drawer (natural oak nature, black-stained oak or American walnut) with a metal frame (traffic black, umbra grey or ochre beige metallic) and a high-quality storage surface in natural stone (Carrara or graphite brown). The extraordinary handle, also made of metal, is starting to become a characteristic feature in this customisable material interplay.
