

Rolf Benz Sono bed

At first glance, the eyes are immediately drawn to the Rolf Benz SONO's headboard, with its strikingly beautiful workmanship and lavish diamond-shaped gathering. In the leather version especially, the incredible craftsmanship of our upholsterers is expressed here more than ever. Despite the appealingly subtle opulence, the bed - not least thanks to its drawn-in filigree feet - looks lightweight and elegant. It is a true overall piece of art and almost too beautiful to close your eyes in when sleeping. SONO is available in three widths and two lengths, both as a box spring bed or with a mattress and slatted frame. The perfect companion for the bed: the Rolf Benz 918 upholstered bench, which also features beautifully crafted gatherings.
