

Zoe Wood Open Air Lounge Chair

Solid iroko wood, aluminum and rope weaves are the soul of Zoe Wood Open Air: a collection of armchairs and a passe-partout bench that convey to the outside the cozy atmosphere that is typical of the indoor. The detail in iroko wood for the armrest and the different types of seat to choose from, either padded or woven, make this collection even more versatile. The weave in polypropylene rope, available in two versions, is entirely handmade and matches the aluminum frame, available in four different colors - Chalk, Petrol, Elephant and Black.
