

# Range 1818 Table

Matching the armchairs and side tables of the lounge range 808, designers Claudia Kleine and Jörg Kürschner of Formstelle have designed minimalist bistro tables in two sizes. The product family 808 is growing and has been extended by the table 1818 with a height of 74 cm and its big brother 1828 as a high table with a height of 105 cm. The elegant bistro tables create places of communication and are excellently suited for use in the Restaurants and Reception segments.

Frames brushed flat steel, tabletops in various sizes in beech, oak and walnut.
