

Filigno

Sideboard 16

A characteristic feature of our Filigno occasional furniture is the delicate casing of genuine solid wood which fuses elegantly with the delicate shadow gap at the corners. Filigno sideboards and high boards come with drawers, hinged and sliding doors, as well as with or without design elements. The fronts can be in solid wood or a choice can be made between coloured glass and ceramic. A practical wooden handle for the wooden fronts makes them easy to open and close. You also have the choice for the base of the sideboards: attractive wooden panels, elegant cubus pure slides, a recessed plinth or the airy metal frame in matt black. Filigno highboards can be fitted with functional interiors for glasses or small appliances, including a dual power point. Both interiors are fitted with LED lighting.
