

The Dining Chair

The Dining Chair designed by Space Copenhagen.

The Dining Chair builds on High Stool's beautifully fluid, sculptural and archetypal character, adding a generously rounded backrest for a heightened sense of comfort. The backrest itself is upholstered in soft durable leather and is fully supportive and comfortable so that it outweighs the need for armrests.

When designing The Dining Chair, made from sustainably sourced wood, Space Copenhagen explored classic, simple and sculptural motifs. The collection is available in solid oak or beech wood with backrest steam bent in veneer.

The wood is sustainably sourced from well-managed forests, honoring the UN Sustainable Development Goals of protecting "Life on Land" (SDGs 15) and "Responsible Consumption and Production" (SDGs 12) while supporting "Partnership for the Goals" (SDGs 17).
