

# FM-250 Sesam sofa

The ultimate in comfort.

A simple adjustment - that can even be made while seated - swivels out the foot-rest and reclines the seat. This offers body support and enhanced relaxation. A fold-down bar converts the armrest pads to comfort head and shoulder rests. Sesam's elegant and tasteful design belies all these functions. Two foot variants give you additional design options.

Sofa available with or without pullout foot and headrest. Legs in natural brushed aluminum or dark grey coating upon request.

Available in several sizes. Please refer to the product spec sheet for more details.
