

Maddix Lounge Chair

Contemporary in its aesthetics, Maddix keeps the profound manufacturing culture of Lema alive.

Its expressive character tells the story of the beauty of living and natural materials like wood and leather.

The soul of Maddix is indeed the fascinating dialogue between these two elements: the light wooden frame, with

shaped profiles, supports the backrest in light hides.

Comfort is assured by the soft cushions with differentiated densities of the seat and backrest. Its proportions make it perfect for residential use, in the living area as in the bedroom, and as a furnishing element in the contract sphere.
