

Lanah Chair

The distinctive Lanah swivel chair is modest in size and combines comfortable upholstery with a sleek aluminium base. The luxurious details give the armchair an irresistible appeal. Upholstering the front and back individually enables the creation of stunning combinations. The recessed seam on the front of the back creates an integrated lower back cushion, and with contrasting colors the wave-like stitching has a playful effect.

- The inside and outside can be upholstered individually in different fabrics, leathers or a combination of the two.
- Lanah also includes a matching footstool.
- The base is finished in polished aluminum, lacquer or an "Epoxy" powder coating.
- Comfort options: seating height +2cm or -2cm
