

# Dreams Cabinet

Cristian Zuzunaga has designed a new version of his Dreams cabinet. "The darkness will show you what the light hides", he tells us. The pixel is the origin at the base of his artistic discourse, and in this case it forms simple and modular structures with a black background. Flashes of color guide us towards the interior of this piece.

Modules, doors, frontal parts and drawers are lacquered in a matte black finish. Tops, frontals and sides are mounted with 6mm tempered printed glass. Legs: Solid beech wood lacquered in matte black.

## Dimensions

W - D - H (inches)

78.7 x 20 x 26.3

118 x 20 x 26.3
