

Graphic Design Element Bookcase & Shelf

The Graphic design element is equally convincing as a solo piece, part of a wall unit, or as a room divider. Whether vertical or horizontal, standing upright on the floor or attached to the wall – Graphic is a unique work of art no matter what way you turn it. The clever arrangement of the shelves and sides creates a graphically exciting appearance and opens up a wide range of application possibilities. The perfect gallery for your favourite pieces. Made of 100 % solid wood, Graphic is available in two different widths, with and without real walls.

The fine solid wood bodies of our design elements invite creative play. Because when it comes to the possible applications, the imagination knows no bounds. Whether they are solitary, combined with, or installed in sideboards, dressers, wall units, and kitchens, they offer space to present decorative accessories. They can also be designed with dimmable LED lighting and glass doors in clear glass, smoky glass, or palladium. The rear panels are available in solid wood with a horizontal or vertical grain texture, as well as in coloured glass.
