

DS-880 Sofa

Comfortable, calming presence

Designed in two levels, the armrests or backrests on the upper plateau can be placed in variable positions.

Its design coyly flirts with variable sitting positions – from comfortable seating to relaxed napping and carefree unwinding.

The DS-880 comes across as an exciting eye-catcher and the ultimate answer to the search for that one, perfect item of furniture.

Presented in patchwork, the bed is a tribute to the craft of leather and carries the message of our manufacture into your own four walls: as an everlasting slice of joie de vivre made of the most sustainable material.

Nothing short of the kind of eye-catcher seen in love at first sight.
