

Pisa Home Office Storage Furniture

Storage space in its most attractive form.

Simple and elegant – our sideboards, desk pedestals, shelves, design elements and shelves made of solid wood offer storage space at its best. Versatile and easy to plan – they adapt to your individual needs and requirements, blend perfectly into your living space and transform your home office into a wohnofficeT7.

Everything within quick and easy reach. The Pisa desk pedestal is a beautiful organizer that complements the eponymous desk. In addition to its functionality, it also impresses with its superior design. Solid wood with slender edges and gently rounded corners extends around the top board. With the matching leather type and color, it complements the look of our chairs and the back panel of the Pisa desk. If desired, the stylish mix of materials can be further accentuated using drawer fronts in leather or natural leather. To suit your individual needs and space situation, the Pisa desk pedestal is available in two widths: with drawers or with drawers and hinged door. Both versions can be fitted with 3 drawers or with a combination of regular and large drawer. Confidential files can be stored in an optional lockable drawer. The pull-out organiser made of solid wood is a testament to our attention to detail. To ensure stability and reduce the risk of tipping over when two drawers are opened at the same time, additional weights are secured in the back panel of the pedestal. The front castors can be secured and ensure that the pedestal stays where you want it to.
