

Lift 1010-E Lift IV Height Adjusting Glass Table

The Lift IV is a technically sophisticated redefinition of the classic 1010 table with LIFT function. By turning the table top slightly, the locking will be released and allows a stepless height adjustment of the table top. Different tempered glass variants for the table top are available: clear glass, and optiwhite glass back-lacquered. The center column is available in polished chrome or matt-chrome.
