

DS-149 Lounge Chair

Material and naturalness

DS-149, an inviting and protective armchair, is adorned with elegant folds that extend across its entire surface, giving the upper material the look of a gentle throw. Designer Miriam Amelung was inspired by organic features that flow into and overlap the interior of the chair. Conceived as a freestanding seating option, DS-149 has the look of a cloudy shell with clear, simple and natural shapes - soft and comfortable.
