

# DS-167 sofa

DS-167 by Hugo de Ruiter for de Sede

An enhancement of one of de Sede's flagship products. Perfect modular seating system with popular adjustable backrests for small and sophisticated rooms. A lighter, more streamlined and contemporary version of the tried-and-tested sculptural body and the characteristic organic form. Cushions resting casually on the flexible backrests, softly fashioned quilting and reduced stainless steel feet are the perfect basis for a sensual seating ensemble.
