

# Nobile Soft 2076 Chair

Designed by Gino Carollo

The model "Nobile" is available in core leather or soft leather in various colors and offers an unusual high sitting comfort due to its flexible, easily swinging backrest. Pleasant, mobile sitting can be experienced, like in a cantilever chair. When the chair is fully covered with core leather the contrast-coloured backstitch seams are clearly visible and form an essential style element. Its strict lines and the robust surface complement each other as modern and powerful seating furniture.

## Design variants

NOBILE can be supplied with or without armrests.

The armrests are fully upholstered with core leather or soft leather. There are 12 different core leather colours to choose from, each with contrast coloured or same colour backstitch seams. There are over 60 colors to choose from in Soft Leather, with the option of polished or matte chrome legs, as opposed to fully leather covered legs.
