

# Liliom Side Table

These organically shaped little tables are available in three different leaf shapes and three heights. So you can choose your own combination of tables to slide over one another as needed to create a tidied-up look. And to add an extra natural accent to your interior, Liliom's leaf-shaped table tops can be finished in solid oak, solid walnut or lacquered. The two small tables are also available in leather so you can match them to your seating. Liliom's feet are chrome-plated or optionally in epoxy, satin chrome and lacquer.
