

DS-1025 sofa

DS-1025 by Ubald Klug for de Sede

Two sophisticated, strong design sofa elements form the perfect basis for implementing your own interior design and furnishing concepts. The single element is like a terraced hill with widths and depths that vary in tapering steps. The elements 'left' and 'right' constitute a welcoming two-seater sofa, a seating pyramid or a small range of upholstered hills. By adding extra elements, it is possible to create entire seating groups to match your ideas and requirements.
